Skills

Languages Ruby, Python, C, C++, Java, SQL, JavaScript
Technologies Ruby on Rails, MySQL, Git, Express, Node.js, Angular, Flask, Memcached, Kubernetes

Experience

Shopify

Software Developer Intern

Sept. 2018 - Dec. 2018

- Worked on Facebook Ads integration and streamlined ad creation process for merchants
- Designed and implemented a throttling module in **Rails** using **Memcached** to limit merchant API usage
- Routed webhooks to their own pods in **Kubernetes** and added pressure release valves for jobs
- Launched a feature to allow merchants to embed discounts in their ads, used by **50%** of all ads created
- Created a **GraphQL API** to distribute **\$1.3 million** in Facebook Ad Coupons to eligible merchants

Shopify

Software Developer Intern

Jan. 2018 - Apr. 2018

- Helped migrate and unify authentication across all Shopify products into a single Identity service
- Increased log in security by adding support for additional two-factor auth methods using **Amazon SNS**
- Wrote background jobs for **Sidekiq** to send IP based new device notifications as well as account audits
- Added stemming to **Elasticsearch** for Shopify Burst which increased image downloads by **14%** and reduced search refinement by **5%**

TD Bank

Software Developer Intern

May. 2017 - Aug. 2017

- Created a dashboard in **Angular** to allow financial advisers to manage their customers at scale
- Implemented a multi-platform real-time chat system for advisers and their clients using **Firestore**
- Designed and built a prototype of a streamlined bill payment experience app for **Android**

Projects

Bookful.ca

- An app that helps University of Waterloo students find textbooks with powerful search tools
- Built a back-end server in **Ruby on Rails** to scrape, parse, and sanitize data using background jobs

Crypto Trader

- Trading platform for crypto-currencies that trades under technical indicators specified by the user
- Used **Node.js**, **Electron**, **Bootstrap**, and **SHA-512** standard for REST calls to Bittrex API

Messenger Bot

- Bot for Facebook Messenger that serves content from various sources automatically or upon user request
- Created a backend server in **Flask** that packages information and serves it to all subscribed users

Education

University of Waterloo

Bachelor of Software Engineering

Sept. 2016 - Apr. 2021
